

Test Plan

1. Introduction

- Test registration page on Links website.

2. Scope

- Testing Registration page functionality and validating data report.

3. Testing Strategy

- Exploratory testing, no document was submitted according to which the testing would be done.
- Designing tests, creating tests and write automated tests scripts

4. Test approach

- The approach that I used, is Analytical and I tried to cover as many tests as possible during explore Registration page

5. Environment

- Windows 10 Pro
- Version: 21H1

Project name: Links

Module name: Registration Form

Created by: Zarko Mrcarica

Creation date: 01.09.2022

Test method: Exploratory

Positive test cases

1. Sign up using valid data in mandatory fields
